

# Canada Day

## PARADE SAFETY

- Prepare for the weather. Bring a hat and sunglasses.
- Even if it is not sunny, apply sunscreen. Sunscreen should be applied 30 minutes before you go outdoors to allow for absorption. Don't forget to reapply!
- Get to the parade route early to get a good spot.
- If you are driving in, park your car in an area easy to enter and exit and look around you before pulling in or backing out. Be sure to check your blind spots.
- Try not to block sidewalks and keep all emergency exit routes open.
- Pack folding chairs rather than blankets to sit on. They are more comfortable and easier on your back.
- If parade floats are throwing candy, check it first. Discard any pieces where the wrapper or seal is broken.
- Keep together.
